

Thank you for being a member of Kellogg Community Credit Union (KCCU) and allowing us to serve your financial needs. Your tax information that is being provided to the IRS will be reported on your December 2017 e-Statement. We will not be mailing a paper copy of your 1099-INT tax form.

Benefits of receiving this information on your year-end statement include:

- It is more secure than mail
- You will receive your tax information earlier
- You have an electronic record of your tax information

Because you have signed up for e-Statements, your tax information can be viewed as soon as your December e-Statements are available. You will access your December statement in online banking as you normally do.

If you have any questions or if you'd like to discuss deactivating e-statements prior to December 31, 2017, which would allow you to receive a paper copy of your account statement and your tax information, please contact a Member Service Representative at 269.968.9251 or email us at contactus@kelloggccu.org.

Thank you for your valued membership!
